Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative, Ms. Kathy Chapman wanted to describe the meaning of the term "profile" found in the independent claim 1. She believed the profile taught by the cited references taught a profile having only one different characteristic such as a zipcode from the addressee section of a mail piece instead of having the entire addressee section as a profile which consists of many characteristics such as the name, street, city, state, and zipcode. The Examiner did not agree to this because the Examiner believes the reference Ryan does teach in some way the profile consisting of not only one characteristic but also several characteristics. Ms. Chapman also asked if a possible amendment further clarifying the definition of profile [Ms. Chapman wanted to define the profile as having multiple characteristics] could be considered and the Examiner stated that any new amendment after the issued Final Office Action would require further consideration. Ms. Chapman for claim 29 wanted to understand the rejection which made reference to the mailpiece ID code found in the cited reference but as going through the rejection, Ms. Chapman made the comment that she understood the reasoning of the rejection and that it made sense. Ms. Chapman for claim 30 wanted to show the support in the Applicants specification in order to argue the 35 U.S.C. 112 new matter issue [the Examiner believed that the updated predetermined profile and the iteration was new matter not supported by the Applicants specification] which was raised in the Final Office Action. Ms. Chapman agreed that the new matter issue did exist toward the updated predetermined profile but made reference to paragraphs 8 and 32-35 to show support for the iteration. The Examiner when referring to the support to paragraphs 8 and 32-35 of the Applicants specification, agreed that there was support for the iteration presented in claim 30 .
